## NEW STORE BUILDING IS NOW BEING ERECTED

Geo. Moss has commenced the erection of a store building on Cawston street, which is to be ready for occupation by the middle of next month. It is to be a solid brick structure 10 by 12 feet, with an office on the east side 14x20. He states the building has already been leased by Calgary people and will be occupied as soon as completed. Already the concrete foundation is nearly completed and the first floor laid down. Mr. Moss has in this above no little enterprise as he has salvaged all the brick worth anything from the former Palace Hotel and the Opera House which buildings were destroyed by fire last February, and being a brick layer by trade he will do the major portion of the erection of the new brick himself, with the aid of a son Sam. The site he is building on was formerly occupied by the B. & N. as a rumpus store but was also destroyed by fire several years ago. Thus the new store will cover up a spot that has been untidy with one that will be a credit to the builder and to the town.

## TOWN AND DISTRICT

Sept. 21—Gleichen School Fair at the Agriculture.

Frank Platts has gone up to Calgary to attend Normal school. The fair is a good time at the picnic tomorrow. You can help. Many Hayman, wife and family have left for Vancouver and other western points to spend a well-earned vacation.

The Moderation League is giving information that should be read by everyone in their advertisements in this issue of the Call.

Mrs. T. W. Bates returned over a week ago from spending a month's vacation with friends at Banff and Calgary and is looking much better. A number of his outside friends.

Miss Milroy, who was taken to Calgary several weeks ago quite ill returned to Gleichen last Thursday and is improving nicely, which her many friends are pleased to learn. The United Church Sunday School picnic will be held tomorrow, (Thursday) afternoon. Cars will be at the church at 1 o'clock to take the children to the grounds. All are invited.

Mr. and Mrs. G. P. Muir arrived in Gleichen yesterday from Calgary to wind up on business affairs here. Mr. Muir for the past four months has been in Detroit, Michigan and intends returning there again shortly.

Thelma Scott returned last Friday from the Calgary, where he was operated on for appendicitis a few weeks ago. He is still rather weak, but steadily improving. His numerous friends are pleased to see him going about town again.

Wm. R. Payne came down from Calgary yesterday to look after his farm interest in this district. He is during his trip to look at a short time ago and spent two weeks in the hospital at Cardston. His illness is still not altogether fully recovered.

"Keep the hired man," is the campaign slogan of the Canada Colonization company, which is very good advice, without doubt. The harvesters coming from Great Britain should be retained in this west if possible. That is the right introduction to a new Canadian farmer. Most of our farmers would like to keep a hired man, but not a few would like a job themselves for a cut wage.

The Post Office Department is exerting every effort to give you the best possible service and all postmaster are being urged to assist in every way they can. This includes your own Postmaster, and there is a very simple way in which you can help him in return—this is to buy his postage stamps from him. His salary is based on his stamp sales and if you buy your stamps without giving him any credit without paying any work, while you are postmaster, then he has to do the work, will not get paid for doing it. You are anxious to boost and to support your own town. Remember your postal service and give the postmaster from whom you get your mail a try by purchasing your stamps from him.

LOST—Ladies' gold color brown. Return to Call office and receive reward. J. W. Hinchey

## WHEAT POOL IS NOW ASSURED

Among the many harvesters coming from the old land, quite a number of them have been secured for the afternoon train. Two of them are from Dundee, two from Glasgow and one of them from Hamilton. They are the type of men who will make good citizens of this country.

## SON OF CANOON CORNISH DIED AT VIKTORIA, SASK.

Charles William Cornish, the only son of the Rev. Canon and Mrs. Cornish, passed away at the Victoria Hospital at 2:30 this morning, after an illness lasting just over one week. The deceased, who was in his thirty-third year, was taken ill at his farm at Nut Mountain on Sunday of last week but did not come to the hospital until Wednesday, when an operation was performed for appendicitis, but it was feared from the first that the operation would be unavailing. His parents, who reside in Edmonton, were immediately notified and arrived in town on Friday morning.

The funeral service will be held at Holy Trinity Church at 2:30 Thursday afternoon, interment to take place in York Cemetery.

Having resided in Yorkton for several years the deceased was well known here. He was educated at the Yorkton Public Schools and took up farming shortly after leaving school. He was a prominent Orangeman and was Master of the lodge in the district in which he had lived.

His parents are very well known throughout this district they having resided here for many years. Rev. Canon Cornish was formerly Rector of Holy Trinity Church and has been associated with the town since 1897. In addition to his father and mother he leaves several other relatives to mourn his loss including Mr. J. C. de Balinhard and Mrs. W. S. de Balinhard of Yorkton and Mr. Ned de Balinhard of Russell who were his uncles and Mrs. Burton of Kamloops, his aunt.

The above is taken from a Gleichen newspaper, and everyone in Yorkton and district will join in extending to Canon and Mrs. Cornish most sincere sympathy in their great bereavement, which left Gleichen a few weeks ago to make their home in Edmonton. We understand this is the last of their family, they having lost another son shortly before they came to Gleichen about three years ago.

The Gleichen public school opens on Tuesday, September 4th.

## WHEAT POOL IS NOW ASSURED

It is stated that about seventy per cent of the farmers in the Gleichen district have signed up the Wheat Pool contract and others are still considering the matter.

The following statement was issued last night by W. J. Jackman, secretary of the Alberta Wheat Pool, at Calgary:

"The Board of Trustees of the Alberta Co-operative Wheat Producers' Limited, held on all day yesterday and discussed many important phases of the work of the organization."

"In view of the increasingly heavy stream of contracts which each mail has been bringing in, confidence now is felt that a few days will see the achievement of the objective of 50 per cent of last year's wheat pool average signed up to the pool."

Consequently very close attention is now being given to the study of the necessary details of preparation.

"Law Hinchey was delegated to attend a session of the Board of Grain Commissioners in Winnipeg on Thursday morning, when the tariff and regulations respecting country elevators will be up for review."

"H. W. Wood will join Mr. Hinchey in Winnipeg on Saturday for an informal conference with the elevator owners, in connection with members of the board of directors of the Saskatchewan Pool. J. E. Howie, who is a prominent farmer, will accompany him."

"J. R. Murray, assistant general manager of United Grain Growers, being in the city, upon the invitation of the Board, was present for a time during the afternoon session and his opinion was obtained on certain questions pertaining to the arrangements regarding handling facilities."

Mrs. S. A. Hall and two little boys returned to Gleichen from a visit at her home in Manitoba for a couple of weeks. They had a good time but were glad to get back home again.

Mrs. Hall says that crops at her home were very good but that generally speaking were far from good throughout Manitoba, it being estimated that over the province an average of over nine bushels to the acre would be the average yield.

The Gleichen public school opens on Tuesday, September 4th.

## ARROWOOD

Miss Lela Walker left Sunday night for Calgary where she will enter the Normal school.

Miss Leah Irwin left Sunday evening for the State of Washington, where she expects to enter school.

Mr. and Mrs. House, parents of Mrs. R. R. McBride are visiting with their daughter and son, Forest House, who will teach school.

Miss Alice Laramie, after spending the summer with her aunt, Mrs. J. S. O'Leary, returned last week from Belleville, North Dakota, near where she will teach school.

Mr. and Mrs. Wayne Silvers and little daughter, Louise Amette, arrived Thursday on a trip from their home at Cameron, Missouri, and are at the home of his sister, Mrs. Gaylen Jones, who will teach school.

Mr. and Mrs. John Aldern of Swinton Park, Ontario, Miss Odell of Toronto, Miss Turnbull of Vancouver, and Miss Pickett of Vulcan have been visiting at the home of Mr. and Mrs. G. C. Campbell the past week.

A community party was held on the townsite last Thursday evening in honor of the R. R. Robinson family who Sunday afternoon. Robinson's sale which was held at his home Saturday afternoon was a success, most of the items selling well.

This community event strong in signing for five years Wheat Pool contract, though the percentage is not so high as reported in some districts. At the close of the meeting of the farmers which was held last Thursday evening forty-two had then signed, and those of the local have been buying the rest of the wheat-growers in the district signed. It is said that only that ten per cent. opposition is now left to consider the case later.

The Buffalo Hill road of the U F W A met at Mrs. W. C. Lyle's August 18th, 18 members and eleven visitors being present. The roll call was answered by "political current events" by Mrs. E. J. Jones, "The Dower Act" by Mrs. Hill and "Our U F A Members in Parliament" by Mrs. Campbell were given. Two humorous readings by Miss Agnes were enjoyed. The next meeting will be held Sept. 1st, at Mrs. Milt Henry's where Miss Hill and Mrs. Henry will be hostesses.

## George Matthews

"VALUE WITH SERVICE" LIMITED

### GREY BLANKETS

The best values we have ever stocked. The ordinary Harvesters Blankets being a wool and cotton mixture bought to sell in quantities.

**\$2.95**

### MEN'S SOX

We have a fawn Merino Sox in cotton and wool mixture that is a sure seller. We have had four shipments this season. Made by Penman's.

**35c. Pair or 3 Pair for \$1.00**

### MEN'S BALBRIGGAN UNDERWEAR

We are overstocked in Combinations, sizes 36 and 44. Out they go at **\$1.50 Suit**

### ALL WOOL GREY BLANKETS

This is guaranteed all wool blanket at the price of a cotton. Only been in stock a few days and the shipment is half gone already.

**\$6.00 Pair**

### MEN'S HARVEST GLOVES

Our leader is a real soft horse hide, dandy fitter, and a good weaver.

**\$1.25 Pair**

### MEN'S WORK SHIRTS

Manufacturers are offering many special lines this fall at reduced prices to merchants who have the money to handle them. We picked up ten dozen the other day, made to sell at \$2.00 and \$2.25 regular. Out they go at **\$1.50 and \$1.75**

## Saturday Night at 8 O'clock

### NO. 1 NO. 2

Ten pieces of color Volles in lengths from two to four yards, worth up to 55c. Yard. To Clear at **25c. yard**

Twelve Pieces of beautiful Ratines and Volles. Plain and Figured. The very newest shades and patterns. Regularly sold at \$1.25 and \$1.50 Yard for **75c.**

## Saturday Evening at 8 O'clock

**NEWS OF ARROWOOD  
AND DISTRICT**

Tom Lacey spent several days in  
Calgary last week.

Among the guests at the home of  
H. H. Irwin Sunday were W. C. Lyle  
and family, Misses Mable Elsie and  
Mary Carr.

Mr and Mrs G. C. Hoop spent Sunday  
at the home of Mel Isham.  
Valter Mooney, after spending the  
summer in and near Calgary, is at  
home again arriving in Gleichen on  
Saturday.

News has been received that Miss  
Phyllis McKendrick has accepted a  
position as teacher in the schools at  
Drumheller, and that Miss L. Don-  
na Turner has accepted a position as  
teacher in one of the Calgary  
Schools.

Mr and Mrs R. J. Jones, Miss Amy  
Lyle, Miss Clara Adams, Miss Mable  
Jones and the following gentlemen:  
Kenneth Lyle, Felix and Louis Jones  
monitored through to the Waterton  
Lakes and visited the Mormon Temple.  
They went by McLeod and returned  
by the way of Lethbridge.

When I have paid my monthly bills  
I feel some pleasant grateful thrills,  
emotions safe and sane, glad smiles  
among my whiskers play and to my  
self I softly say—"I have not lived  
in vain." Down town I journey in my  
coach; I see the tailor Jinks, and  
do not fear his glances; for I have  
paid him every errand I owed him for  
my penic case, and my highway  
panace.

I meet the Uniship face to face;  
he bows low with a gracious grace;  
he's glad to get my trade; he over-  
hauled my handbags but did not  
steal; I see the tailor Jinks, and  
do not fear his glances; for I have  
paid him every errand I owed him for  
my penic case, and my highway  
panace. I meet the Uniship face to  
face; he bows low with a gracious  
grace; he's glad to get my trade; he  
overhauled my handbags but did not  
steal; I see the tailor Jinks, and  
do not fear his glances; for I have  
paid him every errand I owed him for  
my penic case, and my highway  
panace. I meet the Uniship face to  
face; he bows low with a gracious  
grace; he's glad to get my trade; he  
overhauled my handbags but did not  
steal; I see the tailor Jinks, and  
do not fear his glances; for I have  
paid him every errand I owed him for  
my penic case, and my highway  
panace.

The doors that swing before you  
too often lead to those that swing be-  
hind you.

**CROP CONDITIONS  
THROUGHOUT ALBERTA**

Issued by Department of Agricul-  
ture, Edmonton, Alberta, Friday,  
August 24, 1923.

Crop conditions generally over the  
Province are very favorable. In the  
southern districts, wheat cutting is  
well under way in certain districts it  
is half completed. Throughout the  
centre and north cutting will be com-  
pleted next week. Severe storms have  
caused a great deal of lodging in  
heavy fields of oats and barley. Up  
to the present the Department has  
had no reports of rust. A large num-  
ber of samples of wheat have been  
sent to the University and the Depart-  
ment where rust has been seen.  
In every case this has proved to  
be either a root or a fungus  
disease known as helminthosporium.  
When this disease is present the stems  
of the straw will have occasional dark  
mottches and the chaff in the head will  
also be affected in the same manner.  
Where the head is attacked it will be  
found that there is a discoloration at  
the lower end of the kernel. If the  
disease has appeared early, as it has  
in some cases, the yield will undoubt-  
edly be reduced.

Damage from hail has been some-  
what heavier than usual. Wheat,  
however, promises a good yield, and  
will make the largest yield per acre  
since 1916. Officials of the Depart-  
ment have made a careful inspection  
of the province. Combining reports  
of this inspection with reports received  
from a number of regular correspon-  
dents, the estimate of the wheat  
yield has been placed at 24 bushels to  
the acre.

An agreement has been finally  
reached between the Dominion Bank  
at Stationary at Ottawa and the Pro-  
vincial Statistical Branch at Edmon-  
ton whereby the acreage of wheat for  
the year has been placed at 9,600,461.  
The oat crop is uniformly heavy  
throughout the whole province. On  
account of the lodged condition of a  
great deal of the crop it is impossi-  
ble to make an estimate of the yield.  
There is no doubt that the oat crop  
has heavy harvesting, depending to some  
extent upon the weather for the next  
three or four weeks. A considerable portion  
of the oats has been cut throughout  
the south and east territory and cut-  
ting is continuing throughout the  
centre and north during the coming  
week. A large percentage of the crop  
will be cut for green feed on account  
of the lodged condition. The acreage  
on oats for all purposes is placed at  
approximately 4,600,000 acres.

What nonsense it is for newspapers

## FORD CARS AND TRUCKS

At present prices offer greater value than ever in the past.

Years of practical use have demonstrated their reliability and economy of operation.

If considering buying new or used car or truck or trading in your old car on new model.

at Universal Motor Cars, Ltd.,  
Corner 9th Ave. and 2nd St. West, Calgary

Here and There

The total elevator capacity of  
Fort Arthur and Fort William  
reach 50,000,000 bushels by Sep-  
tember 1st, 1923. By the end of  
1924 the elevator capacity is ex-  
pected to reach seventy millions.

Immigration returns of the Cana-  
dian Government for the first  
five months of the present year  
show a one hundred per cent in-  
crease in immigration from the  
British Isles over the figures for  
the same period of last year.

The 1923 apple crop of the Okan-  
agan Valley will amount to 45,000  
cans according to the estimate of  
W. T. Hunter, district horticulturist.  
This is an increase of 20 per  
cent over last year and a record  
for the district. The apple crop  
for Kootenay and boundary dis-  
trict will approximate 50,000  
bushels.

A new high record of pro-  
duction was established by Cana-  
dian sawmill mills during May  
with 119,323 tons, an increase  
of nearly 10,000 tons over the month  
of April and 15,710 over May of  
last year. The daily production in  
May was 4,084 tons, the highest in  
the history of the Canadian industry.

Following the opening of the  
Banff-Windermere Motor Highway,  
the Dominion's average export total  
between British Columbia and British  
Columbia were honored by the Kootenay  
Indians who made them an  
honorary chief and fell at the  
entrance of their tribe respectively. The  
Indian celebrations were held at In-  
vermere in the beautiful Windermere  
Valley.

Several new air stations are to be  
opened in Ontario and Quebec in  
the near future for the purpose of  
extending the forest area to be pa-  
trolled by airplanes. A base is to  
be established at Ramsey Lake near  
Saskatoon, and from this point all  
Ontario work will radiate; opera-  
tions being carried on at Grand  
Bay, Remi Lake and at least two  
other stations not yet announced.

If the Canadian new-wave exports  
of flour are considered as 100,  
the Dominion's average export total  
between 1921 and 1922 can be con-  
sidered as 207. The Canadian new-  
wave exports of the United States  
being rated at 100, the present  
export is at the rate of 147.  
This indicates that Canada has  
more than doubled her export trade  
in flour while the United States  
has increased its trade by 47 per  
cent. Before the war was Canada ex-  
ported 1,820,000 barrels, while at  
present her exports average 2,680,  
000 barrels a year.—Journal of  
Commerce.

Mr. Georges D'Amour, one of the  
most important personages of  
France arrived in Montreal by the  
S.S. "Minotaur" to take up resi-  
dence at St. John's. The French-  
man is 60 years of age and has  
spent most of his life with his grand  
parents in Touraine, a small town  
on the border line with Belgium.  
The journey from the old  
homeland, via Antwerp, was  
made alone but never out of sight  
of the watchful eyes of his wife  
and servants of the company.

Major General Lord Lovett,  
passenger on the Canadian Pacific  
liner "Montcalm," and delegate to  
the League of Nations, arrived in  
Ottawa, and in connection  
with his investigation into Cana-  
dian forestry methods and applied  
science, will investigate the forest  
area in comparison to Cana-  
dian, investigate the forest area  
and forested two-thirds of the  
time we are determined to recover this  
our practical forestry work. We  
have been working at this for the  
last three years and expect to make  
a completion of our work in a  
short time.

## Prince of Wales a Canadian Rancher

This photograph of the Prince was taken on his first visit to the Dominion. To the left is seen a picture of his ranch, and above it is an interior view of one of the stables owned by the Prince of Wales, before his reign.

His Royal Highness the Prince of Wales will visit the Dominion in the month of September. He is a simple Canadian rancher. That he will travel incognito on his coming to Canada does not mean that he will travel in disguise but that he will not take part in official functions or make official visits, and when approached with regard to his day in the Canadian Dominion he has always stated that his time will be fully taken up by the affairs of the Empire.

The Prince of Wales exhibits a deep and marked interest in the ranch he purchased near Calgary on his honeymoon, and honours from the same ranch created an un-  
parallel standard.

The Royal Rancher has planned to arrive at Quebec on September 12th on the Canadian Pacific steamship "Empress of France". The palatial liner, 16,000 tons, which was the flag ship of the 10th Canadian Squadron on Northern patrol duty during the war, is the most modern of its type and is most suited to the accommodation of its distinguished passengers. Re-  
cently the ship was converted into a troopship and  
discontinued after the war, this ship is one of the most  
comfortable and spacious vessels in the world. It has  
service facilities made up of the most modern and  
popular ships in the Canadian Pacific fleet.

## FOR OVER FIFTY YEARS

SINCE 1849 this Bank has been identified inseparably with the development and progress of the Dominion. A Canadian institution engaged and dominated by Canadians, it serves every phase of our business and private life at home, and has played no small part in the steady expansion of Canadian trade in foreign markets.

From a small beginning it has grown through sound business principles to a place among the largest and strongest banks of the world.

You will find this Bank a sympathetic factor in your business and private life.

D. HUTCHESON,

MANAGER

## Government Control of Liquor Means Increased Revenue

In the control of all liquors by the Government of Quebec, two points stand out prominently:

1. That under government control there is less drunkenness than when licenses and the Scott Act were in force.

2. That there has been a large increase in the Provincial Revenue that has enabled the Government of Quebec to prevent the upward trend of taxes, which have become so burdensome to Albertans.

Law and order have been maintained because 90 per cent of the people are behind its enforcement. An attorney general of Alberta, from his place on the floor of the Legislative Assembly, stated that he believed 90 per cent of the people of Alberta were deliberately violating the terms of the Alberta Liquor Act.

If you prefer laws to law, enforced to the undesirable conditions now prevailing in Alberta,

## NEWS FROM EDMONTON Local & Otherwise

By Alberta Publicity Commissioner.  
The Railway Commission has dismissed the appeal of Express Traffic Association of Canada for an order approving a form of release for empty cars can left at station platforms. This appeal was opposed at hearings in Alberta, by A. Chard, for the Alberta Dairyman's Association and the United Farmers.

Despite a hail of thirty cents per bushel on wheat, American farmers are receiving less than a dollar for the 1923 crop, and an agitation is being raised for the Government to buy wheat at a price of \$1.50 per bushel. The tariff has not increased the U.S. price as compared with the Canadian. Indeed it may prove to be a good thing ultimately, as no grain will be shipped straight to Europe or Asia, without being intermixed with U.S. wheat, which is of lower quality. The result of the crop in U.S. prices will be a decrease in the amount now the States next year, and this will lessen the U.S. competition with Canada's exports.

The Alberta Government took steps this week to obtain prior rights in Spray Lake power development scheme, when a telegram was despatched to Ottawa by Government apply for a concession covering all rights involved in the scheme. The action has been taken merely to see that the rights of the public are protected to the fullest extent. Spray Lake is 20 miles south-east of Banff and has immense power-development possibilities.

### FREIGHT RATES

The appeal of Alberta and British Columbia in connection with the differential in freight rates in the mountain territory, which was taken against the decision of the Railway Commission last year, which only 50 per cent of the differential was removed, was heard recently by the Dominion cabinet.

The appeal was argued for the Province of British Columbia and Alberta by G. G. McIlroy, K.C., Vancouver, supported by Frank Ford, K.C., of Edmonton and A. Chard, freight traffic supervisor for the Alberta Government. An attorney general of Alberta, from his place on the floor of the Legislative Assembly, stated that he believed 90 per cent of the people of Alberta were deliberately violating the terms of the Alberta Liquor Act.

If you prefer laws to law, enforced to the undesirable conditions now prevailing in Alberta,

### CANADA'S DAIRY PRODUCTS

Alberta stands third in the list of provinces in matter of products of creamery butter, according to statistics produced by the Dominion Bureau. The following list figures in pounds: Prince Edward Island butter 1,262,000; cheese 1,752,238.

Nova Scotia butter 1,259,420; cheese 31,620.

New Brunswick butter 1,224,930; cheese 108,002.

Quebec butter 52,529,344; cheese 39,779,001.

Ontario butter 51,613,070; cheese 92,700,285.

Manitoba butter 10,890,601; cheese 102,384.

Saskatchewan butter 8,901,144; cheese 12,448.

Alberta butter 15,417,070; cheese 501,922.

British Columbia butter 2,916,183; cheese 43,388.

In 1922 Alberta had an investment in butter and cheese factories of \$2,751,074. The number employed was 872 and the creameries numbered 123. This year there are 95 creameries in operation.

The total amounts of creamery butter produced in the Dominion was 147,752,274 and that of cheese was 126,675,473.

Exports from Ontario are to the effect that the total shipments of Alberta coal being made to that province under the special rate of 47¢ per ton granted by the C.N.R. are in great demand in many centers and there is a movement to appeal to the Federal Government to take up the matter of getting an extension of time on the expiration of the special rate.

Stakeholders trade commission of Alberta, is now in Ottawa superintending the distribution of the special shipment of 6,000 tons.

Full rye is practically all out and will make a very tight yield owing to the fact that it came through the winter in poor condition. The early spring being very dry in most places did not give the crop a good start.

### Local & Otherwise

Ideal harvest weather.  
Labor Day, Monday, Sept. 3rd.  
A. R. Yates returned Monday from spending a holiday at Banff.

Miss Dorothy Hobbs left Friday to spend a couple of weeks vacation at her home in Medicine Hat.

Mr. and Mrs. Allen McDonald are happy in the arrival of a fine boy at their home Sunday, Aug. 26th.

Two weeks of M. Stakelack and children returned Sunday from a visit of nearly two weeks with relatives at Jenner.

Mr. and Mrs. Runney and their mother arrived last week from Regina, Sask., to visit M. Stakelack and Mrs. A. B. Lewis.

Mrs. A. R. Yates and family returned Monday from spending nearly two months visiting her parents in Nova Scotia.

Mr. and Mrs. James Moore and little girl arrived in Gleichen Saturday morning after a visit of nearly two weeks with relatives at Jenner.

At Nanaimo it is reported that 45 farmers signed a petition to the Government, one was absent and seven wanted more time to study the proposition.

Every day tourists are asking to be directed to Gleichen's auto park and one feels like telling you know—how to lead him to it. It is so far behind the times. Say, let's get busy.

There can be little doubt now of the Wheat Pool going through, and it is up to every person to aid in making it a success as it is possible to have it. The pool to very much limit that the prospect of business generally throughout Alberta—so don't knock it, but boost it along.

The Red Indian meet turn green with envy when he says the improvement on nature offered by some of our lady friends, when they apply color to their cheeks, lips, eyebrows, and sometimes hair. One point that "Lo" can cover for himself is that he led the fashion army. The point people's claim, "Save the surface and yet save alive" is being followed by many of our fair sex.

Many of the quick growing trees which can be used for the private use of rapid growers, for example, cottonwood, willow, Russian poplar and Manitoba maple. It is safe to say that wood large enough for fuel can be grown from any of these trees within six years. After that time, plantations will increase in value and productivity year by year and will prove one of the best investments on the farm.

Every person is invited to the picnic tomorrow. Fill your baskets with the top and come along and give the little folk the kind of a day you once so much enjoyed. Anything you want to know about this picnic, ask M. D. Hutcheon.

There are few towns where the above present so many pleasing appearances than those of Gleichen. Our merchants take a pride in the appearance of their business and the appearance and such a pride is certainly commendable.

In supporting the passage of Lady Alberta Bill prohibiting the sale of alcohol to boys and girls under 16 years of age Lord Dunsin, of Penn, the King's physician took occasion to make his position clear in the House of Commons. He said that he was convinced of the damaging effect of alcohol on youthful nerves and the formation of habits and of the necessity of protecting youth he had no hesitation in supporting the bill provided it did not carry with it condemnation of alcohol as such. He denied that alcohol taken in moderation was a narcotic.

He added he took to the pleasure, the exhilaration, the happiness, and the gaiety of life, and was never more needed than now. In these days of exertion and constant endeavor to get twelve hours into one day, the mind of man got into one track. He had no uplift. There alcohol came in and out of the door, and the mind of man got into one track. He had no uplift.

He said that at the end of the track it lightened his mental touch. He said that at the end of the track it lightened his mental touch. He said that at the end of the track it lightened his mental touch.

He said that at the end of the track it lightened his mental touch. He said that at the end of the track it lightened his mental touch. He said that at the end of the track it lightened his mental touch.

NOTICE TO CATTLE OWNERS

Complaint has been made to the Council in regard to cattle being grazed upon vacant property within the town.

Under the Domestic Animals Act the Council has power to prosecute any person grazing his cattle upon vacant land elsewhere or not, but, so far, have refrained from interference with those so doing.

This policy of non-interference will be continued only so long as cattle owners will support the Council by seeing that cattle are so labeled that they cannot cross sidewalks, streets or lanes, or do damage to any private property.

For the privilege, thus granted, is abused then the Council will be compelled to enforce the statute.

PETER MACLEAN, Secretary-Treasurer.

The City of Gleichen is in receipt of every particular and turns out first class work. Send along your letter heads, billboards, business cards etc., and we will give you good service.
